

Practice Behaviours

We support each other to practice the daily behaviours that enable progress in all its forms. In particular, we look for opportunities to practice the “S.T.E.W” behaviours

PRACTICE BEHAVIOURS

**direct technological
development to
maximize positive
outcomes for all**

***What opportunities do we see to both
FOCUS AND BROADEN
the positive outcomes we are working towards?***

Suggested Stretch Questions:

- How does our purpose resonate with me personally AND with our team, organization and/or community?
- How are we providing value to our direct stakeholders AND broader communities?
- How are we having a meaningful impact locally AND engaging with urgent global issues?
- How are we prioritizing both immediate AND long term outcomes?

What other important questions should we be asking?

PRACTICE BEHAVIOURS

**anticipate, monitor and
manage the complex
impacts of technology**

What opportunities do we see to both take

ACTION AND REFLECT

critically as we work towards benefit for all?

Suggested Stretch Questions:

- How are we actively solving identified problems AND critically reflecting to avoid unintended impacts?
- How are we addressing today's challenges AND mitigating risks across the entire life cycle?
- How are we planning to prevent undesirable impacts AND adapting to unforeseen outcomes?
- How are we taking responsibility for our own actions AND encouraging/supporting others to take responsibility?

What other important questions should we be asking?

PRACTICE BEHAVIOURS

**expand who and what
is considered and
involved in decision
making**

***What opportunities do we see to both
DEEPEN AND WIDEN
who and what is included in our efforts?***

Suggested Stretch Questions:

- How are we listening deeply to our existing stakeholders AND widening the range of voices we engage with?
- How are our efforts building upon dominant values AND ensuring interconnected values are not neglected?
- How are we engaging deep specialization AND a wide range of perspectives and expertise?
- How are we utilizing tried and true approaches AND exploring new ones (including non-tech based)?

What other important questions should we be asking?

PRACTICE BEHAVIOURS

**enhance the health of
the systems with which
we engage**

***What opportunities do you see to both
UTILIZE AND CULTIVATE
the various systems with which you engage?***

Suggested Stretch Questions:

- How are our efforts efficiently utilizing our team's resources AND helping develop our long term potential?
- How are we effectively utilizing available resources AND investing in the communities with which we engage?
- How are we aligning with dominant societal systems AND addressing their failures?
- How are we efficiently utilizing natural resources AND enhancing the health of the natural environment?

What other important questions should we be asking?
